

OCTOBER 2016 NEWSLETTER

Carolina Shores
GARDEN CLUB

Our meeting on October 12th was very well attended, with several new members as well as returning members. Master Gardener, Sam Marshall, gave a very entertaining and informative presentation on how to prepare our gardens this fall.

GARDENING TIPS FOR THE FALL

- 1) Do not plant spring-blooming bulbs until November or even early December when temperatures are cooler.
- 2) Divide daylilies, hostas, daisies, and iris by lifting plant out of ground and separating with a knife to get new specimens to

plant. Also a good time to dig up crowded bulbs such as daffodils.

3) Keep mums well watered and deadhead to encourage flower production. If in pots, you can plant in ground when finished flowering and they will come up next year.
