## **January Garden Tips**

- Plants are resting, recharging and readying themselves for another spring.
- Give your Christmas tree new life as an outdoor haven for birds.
- Plan a spring and summer garden. Wash left over flower pots in one part bleach to nine parts water to prevent diseases.
- Remove dead leaves and fallen branches from your lawn and planting beds.
- Apply a light 2 – 3 inch layer of clean winter mulch to protect bulbs and plant roots from cold nights.
- When watering indoor plants, fill a container with tap water and allow the water to warm to room temperature.
