17 LAKEVIEW COURT  
CAROLINA SHORES, NC 28467  
PHONE: 910-579-2044 FAX: 910-575-4173

Included are several documents that you will find helpful if you are considering removing a tree in the community of Carolina Shores. You will find the following:

- The Carolina Shores Property Owners Association tree removal and preservation regulations,
- The Carolina Shores Property Owners Association tree removal application/permit,
- A list of certified arborists,
- A list of acceptable replacement trees “TREES FOR WET AREAS”,
- A list of brush hogging and tree removal companies that are licensed to conduct business within the Town of Carolina Shores,
- The Town of Carolina Shores Tree Preservation Permit with instructions,

**1. If your tree is less than 6” DBH** (diameter breast high) you may remove it without acquiring a permit from either the Town or the POA. The diameter breast high measurement is taken 4 ½ feet above the ground.

**2. If your tree is 6” DBH or larger** you will need to fill out a CSPOA tree removal application/permit prior to removing the tree.

**3. If your tree is 8” DBH or larger** you will also need to fill out the Town permit application prior to removing the tree. This is in addition to the POA application/permit.

**4.** The Town charges a \$10 permit fee, the POA permit is free.

**5.** The Town would like you to draw a property diagram in which you indicate the location of the trees you would like to remove, on the BACK of their permit application. The POA application has a space on the front of the application/permit for your diagram.
